

Hi, I'm Climate Toothpaste. I want to connect you with climate advocacy groups in your area. A lot of people are concerned about climate change, but feel overwhelmed by the problem, and they don't know where to turn. **Good news:** amazing groups are already working on solutions! I'm here to help you learn about these groups, so you can find a fit.

Here's a text you can use to introduce yourself:
I'm concerned about climate change and am learning how to be involved with climate solutions/carbon pricing initiatives/conservation. Can you tell me about your group and what you do?

CONNECTICUT

Did you know? Connecticut is a member of The Regional Greenhouse Gas Initiative (RGGI), the first market-based regulatory program in the United States to reduce greenhouse gas emissions. RGGI is a cooperative effort between Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont, to cap and reduce CO₂ emissions from the power sector.

Pricing Carbon

Citizens Climate Lobby
www.citizensclimatelobby.org

Citizens Climate Lobby is an international organization that is trying to pass legislation for a national carbon fee and dividend. What's missing from climate change? Political will. CCL creates that political will by educating about cli-

mate change. CCL has 7 chapters in Connecticut.

Climate/Environment

350.org organizers@350ct.org

A global grassroots climate movement that holds leaders accountable to the realities of science and the principles of justice. Through online campaigns, grassroots organizing, and mass public actions, 350 brings together a global network in over 188 countries. 350 has 2 branches in Connecticut.

Climate/Environment/Conservation

Sierra Club
www.sierraclub.org/connecticut

Protects wilderness, helped pass the Clean Air Act, Clean Water Act, and Endangered Species Act. Sierra Club wants to move away from the dirty fossil fuels that cause climate disruption and toward a clean energy economy. Sierra Club has 4 chapters in Connecticut.

Climate Mobilization

The Climate Mobilization
www.theclimatemobilization.org

Climate change presents us each with a fundamental choice. Will we be passive as civilization slowly collapses around us? Or will we mobilize and fight back for a 100% clean energy future? The Climate Mobilization believes we need a WWII-scale national mobilization to fight climate change.
