

Hi, I'm Climate Toothpaste. I want to connect you with climate advocacy groups in your area. A lot of people are concerned about climate change, but feel overwhelmed by the problem, and they don't know where to turn. **Good news:** amazing groups are already working on solutions! I'm here to help you learn about these groups, so you can find a fit. **Here's a text you can use to introduce yourself:**

I'm concerned about climate change and am learning how to be involved with climate solutions/carbon pricing initiatives/conservation. Can you tell me about your group and what you do?

IDAHO

Idaho gets 25% of its energy from wind.

Pricing Carbon

Citizens Climate Lobby
www.citizensclimatelobby.org

Citizens Climate Lobby is an international organization trying to pass legislation for a national carbon fee and dividend. What's missing from climate change? Political will. CCL creates that political will by educating about climate change. CCL has chapters in Boise, Salmon, New Plymouth and the Palouse Region.

Climate/Environment/Conservation

Sierra Club www.idaho.sierraclub.org
Protects wilderness, helped pass the Clean Air Act, Clean Water Act, and the Endangered Species Act. Sierra Club wants to move away from the dirty fossil fuels that cause climate disruption and

toward a clean energy economy. Sierra Club has 3 chapters in Idaho: the Palouse Group (Moscow), Middle-Snake Group (Boise), and Sawtooth Group (Ketchum). The website also links to a Climate Action Community and a plug-in vehicle enthusiast group.

Idaho Conservation League www.idahoconservation.org

The Idaho Conservation League is Idaho's leading voice for conservation. With offices in Boise, Ketchum and Sandpoint, ICL works hard and smart to protect the air you breathe, water you drink and wild places you and your family love.

Climate/Environment

350.org www.350idaho.org

A global grassroots climate movement that holds leaders accountable to the realities of science and the principles of justice. Through online campaigns, grassroots organizing, and public actions, 350 brings together a global network in 188 countries. 350 has a chapter in Boise.

Other Idaho groups: Over 25 other Idaho environmental groups are listed on this website:
<http://www.eco-usa.net/orgs/id.shtml>

Climate Mobilization

The Climate Mobilization
www.theclimatemobilization.org

Climate change presents us each with a fundamental choice. Will we be passive as civilization slowly collapses around us? Or will we mobilize and fight back for a 100% clean energy future? The Climate Mobilization believes we need a WWII-scale national mobilization to fight climate change.

climatetoothpaste

You can print out state-specific brochures at climatetoothpaste.com. Climate Toothpaste is a project by artist Heidi Cody. If you notice omissions or errors, please contact hcodystudio@gmail.com. Climate Toothpaste boxes are printed in CA using wind power, renewable energy credits, and vegetable-based inks. The printer is certified by the Sustainable Forestry Initiative.
