

Hi, I'm Climate Toothpaste. I want to connect you with climate advocacy groups in your area. A lot of people are concerned about climate change, but feel overwhelmed by the problem, and they don't know where to turn. **Good news:** amazing groups are already working on solutions! I'm here to help you learn about these groups, so you can find a fit.

Here's a text you can use to introduce yourself:
I'm concerned about climate change and am learning how to be involved with climate solutions/carbon pricing initiatives/conservation. Can you tell me about your group and what you do?

WASHINGTON, D.C./ VIRGINIA

Pricing Carbon

Chesapeake Climate Action Network camila@chesapeakeclimate.org

CCAN is the first grassroots, nonprofit organization dedicated to fighting global warming in Maryland, Virginia, and Washington, D.C. CCAN is working on a D.C. carbon fee. By putting a price on carbon pollution and rebating 100% of the proceeds back to residents, the city could become the healthiest, greenest and most livable city in the U.S.

Citizens Climate Lobby www.citizensclimatelobby.org

Citizens Climate Lobby is an international organization that is trying to pass legislation for a national carbon fee and dividend. What's missing from climate change? Political will. CCL

creates that political will by educating about climate change. CCL has one chapter in DC and 20 others throughout Virginia.

US Climate Plan evan@usclimateplan.org

US Climate Plan seeks to elevate the national dialogue and engage the American people around climate change policy and promotion of clean energy solutions in the United States. US Climate Plan also runs the State Carbon Pricing Network.

Climate/Environment

350.org www.350.org

A global grassroots climate movement that holds leaders accountable to the realities of science and the principles of justice. Through online campaigns, grassroots organizing, and mass public actions, 350 brings together a global network in over 188 countries. 350.org is in Leesburg, Charlottesville and Fairfax.

Climate/Environment/Conservation

Sierra Club information@sierraclub.org

Protects wilderness, helped pass the Clean Air Act, the Clean Water Act, and the Endangered Species Act. Sierra Club wants to move away from the dirty fossil fuels that cause climate disruption and toward a clean energy economy. Sierra Club has offices in Richmond, Norfolk and Reston.

Virginia Conservation Network <http://www.vcnva.org/our-partners>

Virginia Conservation Network is a coalition of 120 environmental organizations working to

create a powerful, diverse, and highly-coordinated conservation movement in Virginia. This web link lists many groups working on environmental causes in VA.

Climate Mobilization

The Climate Mobilization www.theclimatemobilization.org

Climate change presents us each with a choice. Will we be passive as civilization slowly collapses around us? Or will we mobilize and fight back for a 100% clean energy future? The Climate Mobilization believes we need a WWII-scale national mobilization to fight climate change.
